Attachments: Dioxin Levels at School with Past PCB Contamination (Data Attached)

Hi all, we're trying to schedule a GoTo meeting for tomorrow (Thursday) at 11:30 to discuss response to the report sent to DOH, ECY, and EPA yesterday requesting action on Sky Valley. I've attached the email. Are you available? Nancy

Thanks for organizing Nancy,

I think Nancy would be good to invite for continuity. Also the PEHSU may get called by media on this issue. Michelle Mullin would be worth inviting, because of their role in the PCB cleanup. ECY was also named in the letter, not sure what role they have in this scenario but they might want to participate. Marissa Smith is their contact.
Barb

Just waiting to hear from Snohomish County. Do we want to invite PEHSU (Nancy Beaudet) and/or EPA to join the conversation? I'm off this afternoon, but will check email occasionally. Nancy

Subject: Sky Valley report received yesterday
Importance: High

Snohomish HD has asked me to set up a GoTo meeting to discuss an appropriate response to the latest report received late yesterday on Sky Valley testing. I suggested that it may take a couple of days for Barb to review the new information and that DOH management will need to decide on how to proceed. Do you think we should plan to meet on Monday? Earlier? Do you want the report forwarded to the PEHSU at this time – or wait for further discussion?
